CURRENT LIST of MEDICAL LITERATURE

Vol. 17 August 5, 1949 No. 5

Subject Groups According To Journals

1. Allergy
* 2. Anatomy; Histology
3. Anesthesia
* 4. Anthropology
5. Aviation Medicine
6. Bacteriology; Parasitology
* 7. Biology
* 8. Cancer
* 9. Cardiovascular System
* 10. Chemistry; Physics
* 11. Dentistry; Stomatology
* 12. Dermatology
13. Diagnosis; Clinical Methods
* 14. Digestive System
15. Endocrinology
16. Forensic Medicine; Toxicology
* 17. General
* 18. Genetics; Eugenics
19. Geriatrics
* 20. Gynecology; Obstetrics
* 21. Hematology
22. History; Bibliography; Biography
* 23. Hospitals
* 24. Immunology; Serology
* 25. Industrial Medicine
26. Infectious Diseases
* 27. Medicine.
* 28. Military and Naval Medicine
29. Miscellaneous
* 30. Musculoskeletal System
* 31. Neurology; Psychiatry
32. Nursing
* 33. Nutrition
* 34. Ophthalmology
* 35. Otorhinolaryngology; Phoniatry
* 36. Pathology
* 37. Pediatrics; Child Welfare
* 38. Pharmacology
* 39. Physiology
* 40. Psychology
* 41. Public Health; Epidemiology
* 42. Radiology
* 43. Respiratory System
* 44. Surgery, General
45. Therapeutics
46. Tropical Medicine
47. Tuberculosis
48. Urology
49. Venereal Diseases (see also 12. Dermatology)
50. Veterinary Medicine

THE ARMY MEDICAL LIBRARY
Washington, D. C.

THE ARMY MEDICAL LIBRARY

PHOTODUPLICATION SERVICE

The purpose of photoduplication is to extend the services of the Library to those at a distance who cannot come in person to consult its collections. In the case of the Army Medical Library it provides an economical and efficient means of contributing more largely to the advancement of medicine and the public welfare.

In order that photoduplication may render the greatest possible aid to those engaged in medical research, the following policies in regard to its conduct will be observed:

1. The Library will lend without charge single microfilm copies of original articles published in medical periodicals not available locally. Such loan requests should be routed through libraries, governmental agencies, or research institutions. The microfilm, being part of the duplicate collection of the Library may be used for ninety days and will be returned to the Library at the end of the loan period.

2. Requests for microfilms and photoprints for official business in the Department of Defense will be filled free of charge.

3. Microfilms will also be sold to those desiring to retain them, at a rate of 50 cents for each 50 pages or fraction thereof from a single article.

4. For the benefit of those not having the facilities to read microfilms, photoprint copies of separate articles from periodicals will be supplied at a charge of 50 cents for each 5 consecutive pages or fraction thereof from a single article.

5. Except when the order is accompanied by the written permission of the copyright owner, The Army Medical Library will not reproduce books protected by copyright, or entire periodical issues.

INSTRUCTIONS

All requests, including those for free loans, must be submitted on Army Medical Library official order blanks (AML Form 48). A supply will be furnished on request.

All purchase orders must be accompanied by payment in cash, or by check or money order made payable to the Treasurer of the United States; or by Army Medical Library Coupons which may be ordered in any quantity from the Library at 50 cents each.

Federal agencies will be billed periodically by means of Standard Form 1080 (Voucher).

Refunds for material the Library is unable to supply will be made by coupons unless cash refund is specifically requested.

The CURRENT LIST OF MEDICAL LITERATURE is for sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C. Price: $3.00 per year ($3.75 foreign); 10 cents per single copy. All communications regarding subscriptions should be addressed to the Superintendent of Documents.

Published weekly by the ARMY MEDICAL LIBRARY, 7th Street & Independence Ave., S. W., Washington 25, D. C., as an interservice publication of the Department of the Army. Lists articles of medical interest contained in current journals received. Subject index provided monthly. Exchange invited.

CURRENT LIST OF MEDICAL LITERATURE
Vol. 17, No. 5 August 5, 1949

2. Anatomy; Histology

Anat. Rec., 1949, 103: No. 3 (Mar.)

ORTIZ, M. H., & BRODIE, A. G. On the growth of the human head from birth to the third month of life. 311-33.
EVERETT, N. B. Autoplastic and homoplastic transplants of the rat adrenal cortex and medulla to the kidney. 335-47, incl. 2 pl.
MENSCHIK, Z., & SZCZESNIAK, T. J. Vitamin E and liver lipids in mice. 349-63, incl. pl.
MONTAGNA, W., & KENYON, P. Growth potentials and mitotic division in the sebaceous glands of the rabbit. 365-79, incl. 3 pl
HOGUE, M. J. Human fetal choroid plexus cells in tissue cultures. 381-99, incl. 3 pl.
ANDREASEN, E., & CHRISTENSEN, S. The rate of mitotic activity in the lymphoid organs of the rat. 401-12.

4. Anthropology

Man, Lond., 1949, 49: Art. 63-78 (May)

WILLIAMS-HUNT, P. D. R. Anthropology from the air. 49-51, 2 pl.
COELHO, R. The significance of the couvade among the Black Caribs. 51-3.
GANAY, S. DE. On a form of cicatrization among the Bambara (transl.) 53-5.

7. Biology

Biológico, S. Paulo, 1949, 15: No. 1 (Jan.)

DUVAL, G. Fumigação experimental de sauveiros com brometo de metila. 1-9.
LEPAGE, H. S., & GIANNOTTI, O. Experiências de combate às pragas do algodoeiro com diferentes inseticidas orgânicos modernos. 10-6.

Biometrics, 1949, 5: No. 1 (Mar.)

HARSHBARGER, B. Triple rectangular lattices. 1-13.
MILLER, R. B. Problems of the optimum catch in small whitefish lakes. 14-26.
FRY, F. E. J. Statistics of a lake trout fishery. 27-67.

Bull. Entom. Res., Lond., 1949, 40: No. 1 (May)

PRADHAN, S. Studies on the toxicity of insecticide films; preliminary investigations on concentration-time-mortality relation. 1-25, pl.
MACKERRAS, M. J., & LEMERLE, T. H. Laboratory breeding of Anopheles punctulatus punctulatus, Dönitz. 27-41.
MOGGRIDGE, J. Y. Glossina pallidipes and open country in the coastal area of Kenya. 43-7.
McARTHUR, J. A new variety of Anopheles aitkeni from Borneo. 49-52.
McARTHUR, J. The Anopheles Tambunan, North Borneo. 53-60.
SABROSKY, C. W. On the distribution and correct name of Oscinis pallipes, the swarming gnat of the Sudan. 61.
WHITESIDE, E. F. An experiment in control of tsetse with DDT-treated oxen. 123-34.
O'FARRELL, A. F., JONES, B. M., & BRETT, G. A. The persistent toxicity under standardized field conditions of pyrethrum, DDT and gammexane against pests of stored food. 135-48.
MATTINGLY, P. F. Studies on West African forest mosquitos; the seasonal distribution, biting cycle and vertical distribution of four of the principal species. 149-68.

Contr. Embryol. Carnegie Inst., 1949, 33: Nos. 213-221 (Feb.)
